FERTILISER BIN

The Multipurpose Bin

The multipurpose Fertiliser Bin by AGRIBIN is a storage bin designed for fertiliser or rice. It is also suitable at harvest and sowing for cereals and small seeds.

Features

- Steeper cone design to allow for the flow of fertiliser making it easier and faster to self-empty
- Ground-operated centre-opening lid for filling with auger
- Mechanical slide/choke for controlling the flow of fertiliser

6 GOOD REASONS
TO BUY AN AGRIBIN

1. BIGGER

Largest field bin on the market providing the extra storage needed to keep harvest going.

2. FASTER

13″ Auger with 4-5t/ minute unloading capacity - can load a semi trailer in 6 minutes and road train in 12 minutes.

3. SAFER

Hydraulic rams on draw bar and wheels. Lifting and lowering safe, easy and quick operation.

4. EASIER

Farmer and truckie friendly operation with ground operated roof doors, sight glasses and manhole in base of cone.

5. TOUGHER

Made tougher locally in Australia for Australian conditions with 4mm thick gal SHS frame and hot dip gal coated auger.

6. BETTER VALUE

More reliable. All-terrain tyres. Quality features: PTO operated auger with heavy duty gear box and double flighting at base of auger.

AGRIBIN

WHAT OUR CUSTOMERS SAY

TESTIMONIALS

GREAT IN PADDOCK BIN DURING HARVEST

“The Road Train Bin has essentially eliminated the need for any other field bin. It’s a great paddock bin during harvest.”

— Ben Armstrong, Grenfell NSW

VERY FAST

“The speed of emptying is amazing! Very fast to unload, very quick to move and cleans out easily. Also the value for money compared to other bins.”

— James Clifton, Weddin Farms Grenfell NSW
